From Our Family

Hello from Hope Garden!

I have news from Hope Garden that we have another baby now. He is only a month year old now and my father named him as Jewelry which means be shine as jewels. Nobody know who he is, what story he has but he is an adorable baby. He was less than 3kg when he came but now he weighs about 5kg. Please pray for him to grow healthy.

Pu-reum grow really fast, she looks like a girl now but she's only 30 months old and she can't speak well enough yet. Well she's been slow in other growth process so we are not worried. She loves to play outside during the day time since the weather became warm. And thankfully she loves her baby brother.

Other kids and elders are doing well, everyone is busy on their lives; schooling, working, playing studying etc.

Please pray for my parents. They've been suffering from a backache (=waist). Both my parents can't pick up heavy things, and it's painful when they are holding the baby so they are having hard time these days.

Well, just let me know what's going on. We are always thankful to have you as a family.

The Hope family in China misses the Hope family in the US!!!!

In Christ,
Joanna
